Notes:
1. Slot connectors must be oriented as shown.
2. Pin 1 must be marked on at least one slot.
3. Each slot number must be indicated on the PCB.
4. All backplane slots must fit full-dimension cards
5. Slots at either end of the backplane must allow a minimim 0.1" clearance between full dimension cards and chassis.
6. Maximum component height under cards may not exceed the edge connectors.
